Lessons Learned

Why is Holocaust education important?

- Demonstrates the dangers of antisemitism, discrimination, dehumanization and hatred
- Illustrates how institutions can be turned against a segment of society
- Increases our understanding about human possibilities in extreme and desperate situations
- Reinforces humanistic values that protect and preserve free and just societies

The Holocaust Symposium for Teens is an extracurricular program for high school students consisting of:

- Six 60-90 minute in-person or virtual learning sessions
- Opportunities to meet Holocaust survivors
- One book read
- Two written reflections
- Optional visit to a Holocaust museum or memorial, pending funding

Students who attend all of the learning sessions, read the book and submit reflections will receive a Certificate of Achievement.

There is no cost to participate in the symposium.
